Subject : Operation Peace Spring

Dear President,

I would like to share some insights from a business perspective on the operation (Operation Peace Spring) of the Turkish army in the southern border of Turkey.

The conflict in Syria has created a breeding ground for various terrorist organizations, posing a wide range of threats to the region and beyond and adversely affecting the business environment.

According to the International Organization for Migration there are nearly 6 million Syrian refugees including 2.4 million children as a result of a civil war in Syria. Turkey alone currently hosts over 3.6 Syrian million refugees.

Terrorist groups in Syria murder, oppress, blockade and exploit civilians and child soldiers, and commit ethnic cleansing.

The Turkish Government has spared no effort to help remedy the situation in Syria, in accordance with all the relevant UN Security Council Resolutions, particularly by fighting against terrorism in all its forms and manifestations.

Turkey's national security has remained under the direct and imminent threat of numerous terrorist organizations operating in the east of Damascus in Syria, among which DEASH and PKK's Syria affiliate PYD/YPG come at the forefront.

Turkey has launched Operation Peace Spring in northern Syria on 9 October 2019, in line with the right of self-defense as outlined in Article 51 of the UN Charter in order to counter the imminent terrorist threat, to ensure Turkey's border security, its equatorial territories starting from along the border regions adjacent to Turkish territory and to liberate Syrians from the tyranny of PYD/YPG as well as DEASH.

PYD/YPG terrorist organization operating in the northeast of Syria has become a serious threat for the regional and international security, as well as the territorial integrity of Syria.

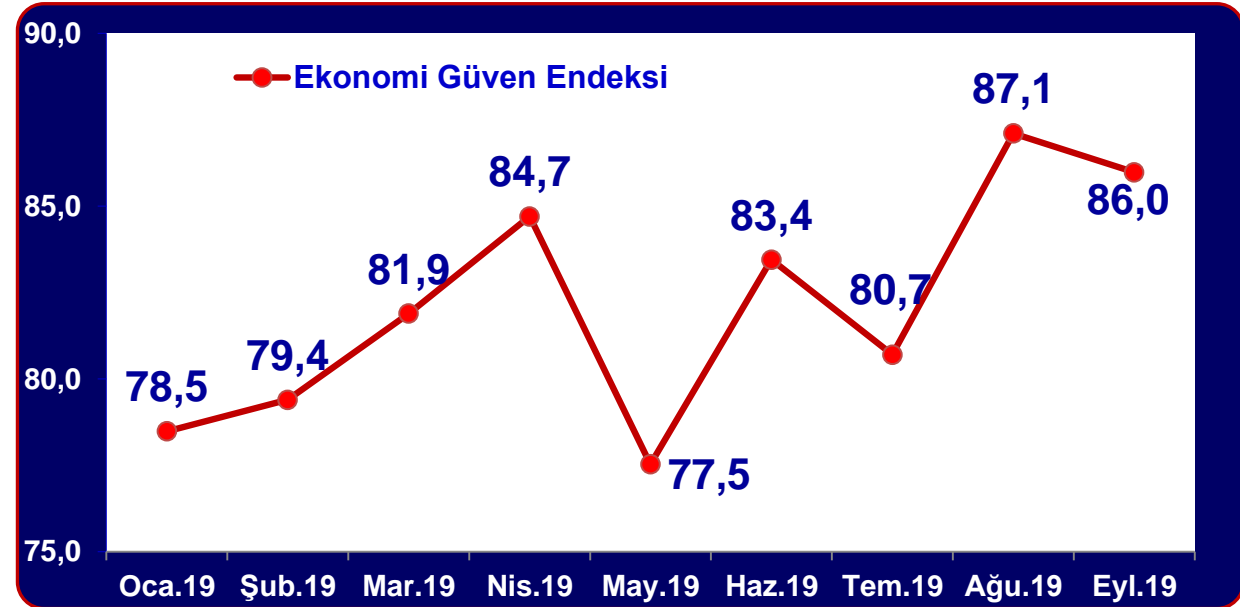

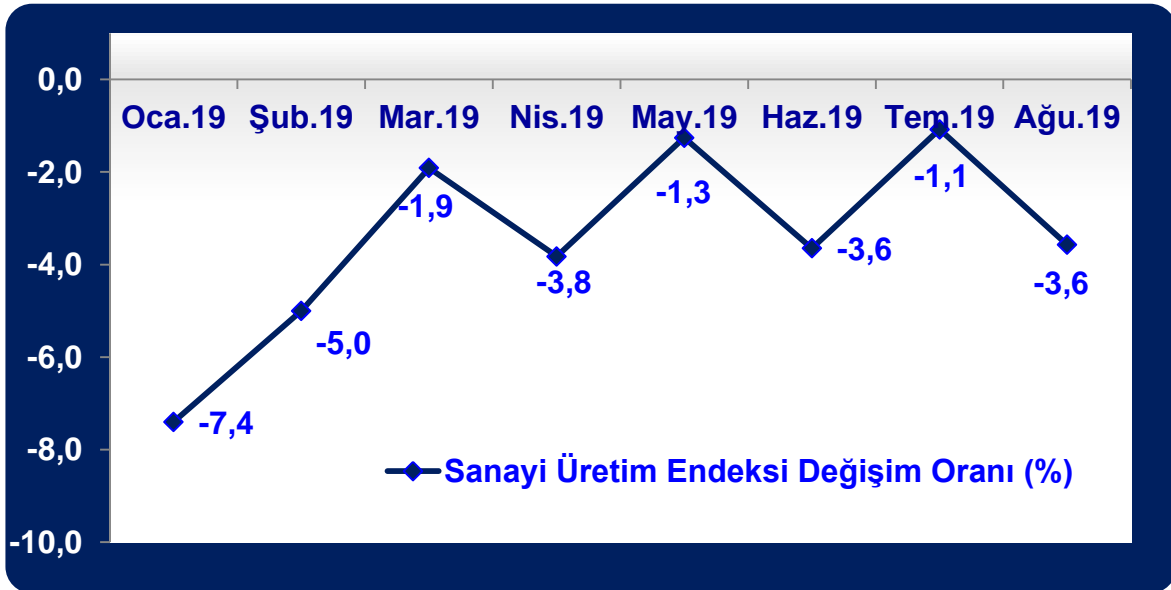

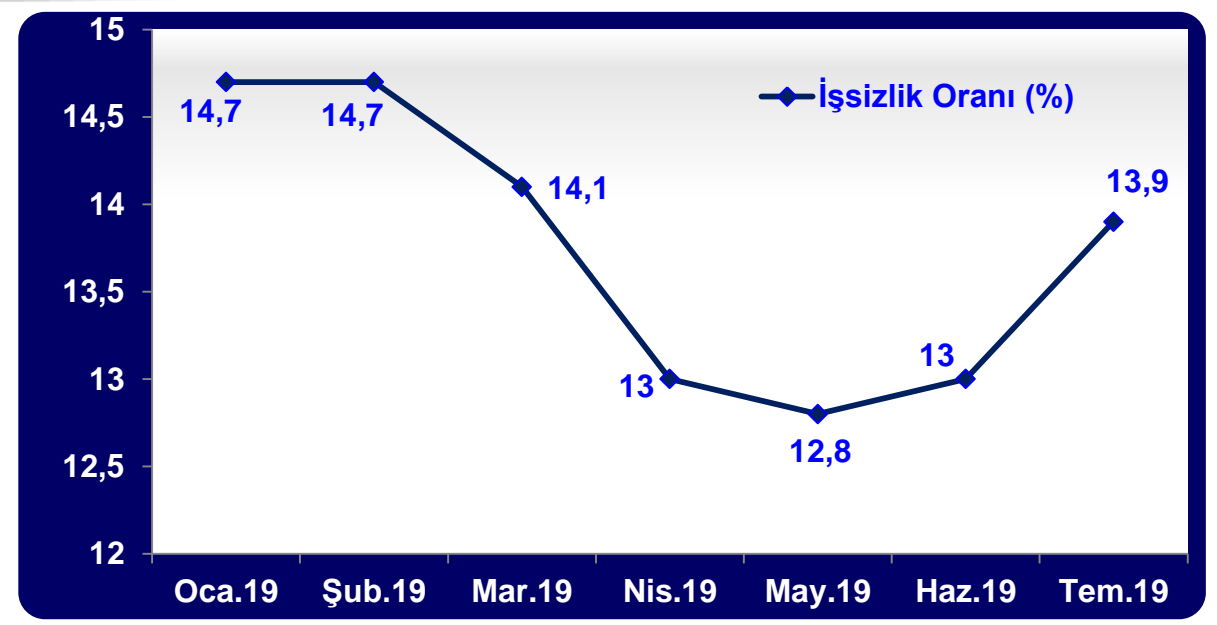

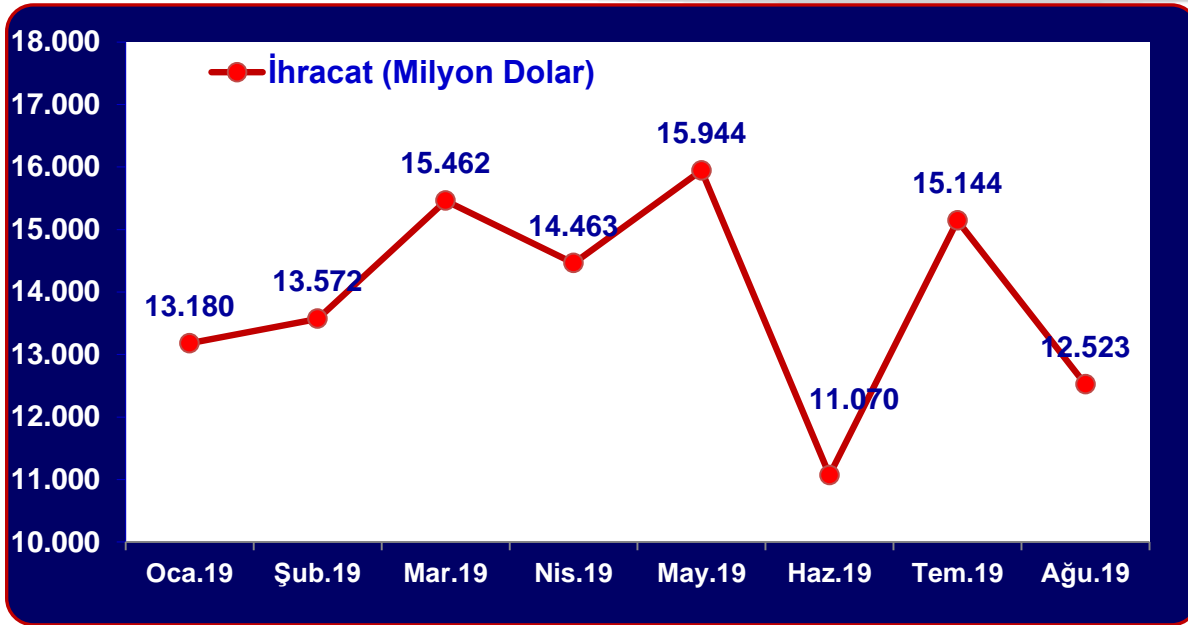

In particular, PYD/YPG units close to Turkish borders in the northeast of Syria, continue to be a source of direct and imminent threat as they opened harassment fire on Turkish border
